Body

The Senate Energy and Natural Resources Committee issued the following information for a hearing entitled: "Hearing to Examine Global Climate Trends and Progress in Addressing Climate Change" at 10 a.m. on Feb. 3 at G50 Dirksen Senate Office Building:

The purpose of the hearing is to draw on data and analysis by the United States' and world's leading authorities on global climate trends from energy related sectors to consider where and how progress has been made in addressing climate change.

Members of the committee may participate in person or online. The Committee will follow guidelines developed in consultation with the Office of the Attending Physician and the Senate Rules Committee to protect the health of members, staff, and the public. This includes maintaining six-foot social distance spacing in the hearing room. Pursuant to this guidance, Senate office buildings are not open to the public other than official business visitors and credentialed press at this time. Accordingly, in-person visitors cannot be accommodated at this hearing.

The hearing will be webcast live on the committee's website, and an archived video will be available shortly after the hearing concludes. Witness testimony will be available on the website at the start of the hearing.

Opening Remarks

* Sen. Joe Manchin, Senate Energy and Natural Resources Committee

* Sen. John Barrasso, Senate Energy and Natural Resources Committee
